

Master Thesis MSc Geology 2015

Subject	Advisor	Co-advisor
"Assessment of Hydrocarbons and Total Petroleum System of Kirthar Formation, Suliman Range, Middle to Lower Indus Basin, Pakistan"	Stein	Henk
"Investigation of the Western Badenweiler - Lenzkirch - Zone with respect to sedimentological, structural and economical aspects"	Stein	Kenkmann
"Radioanalytical Separation and Measurement Techniques for Uranium in Environment Samples"	Siebel	Eikenberg
"The Microstructural Effects of Lightning on Sandstone: An Experimental Investigation"	Kenkmann	Thoma
"Comparison of Imaging Techniques for the Analysis of Internal Structures of Pearls"	Redler	Krzemnicki
"The relationship between the structural development and ore-bearing veins in the Teufelsgrund-mine"	Stein	Danilewsky
"The Potential for Using Consumer Electronics for Seismic Exploration"	Hergarten	Stein
"Analysis of fracture topographies of deformed rocks using white light interferometry"	Kenkmann	Hergarten
"Advanced geostatistical methods for geomorphometrical analysis"	Hergarten	Kenkmann
"Comparative investigations of fluorite veins in the Black Forest"	Stein	Danilewsky
"A study of water-rock interaction processes on Vannøya, Norway"	Bucher	Kullerud
"Late Pleistocene Landscape Evolution along the Western Margin of the Upper Rhine Graben, France"	Bucher	Kullerud
"Field Studies with Petrophysical and Geochemical analytical methods applications on Carboniferous oil shales, Puertollano, Spain."	Stein	Maldonado Zamora
"Analysis of fragmentation during dynamic loading: Investigations in the Ries impact crater, Germany"	Kenkmann	Reimold
