

Master Thesis MSc Geology 2021

Subject	Advisor	Co-advisor
Investigation of the Ill Levee and adjacent floodplain south of Illhaeusern, Central Alsace	Preusser	Schmitt
Petrography and Depositional environment of the Casper Formation in Southeastern Wyoming, USA	Kenkmann	Wilk
Geological Evolution and Applied Aspect of Rhine Delta	Preusser	Hergarten
Review of the geological setting of the Ganges Delta	Preusser	Hergarten
CraterZahl - Web-Based Tool for Automated Crater Detection on Mars	Hergarten	Wulf
Thermodynamic Modelling of Metasomatism and Mineralization in the Fe Skarn Deposit at Zlatý kopec, Erzgebirge	Dolejs	Siebel
Integrated chronostratigraphy of the Paleogene units in the Ripoll syncline	Hergarten	Kenkmann
Geochemistry of subduction zone fluids: Experimental constraints and thermodynamic models	Dolejs	Siebel
Investigating the Loess-Paleosol Sequence of Köndringen, Germany, using a multi-methodological approach	Preusser	Poelchau
Investigating the Loess Sequence of Bahlingen a. K., Germany, using a multi-methodological Approach	Preusser	Poelchau
