

Schedule for the Research Seminar - Sommer Semester 2023

<u>Date</u>	<u>Speaker</u>	<u>Topic</u>
25.04.2023	Bennet Schuster	Drilling Overdeepened Alpine Valleys (DOVE): The ICDP drill site 5068-1 in the Tannwald Basin
02.05.2023	-	-
09.05.2023	Vincent Nwazelibe	Determination of Surface Roughness on Mars and the Possible Implication for Secondary Crater Formation
16.05.2023	Madhurima Marik	Luminescence Chronology in determining quaternary climate and tectonics
23.05.2023	Carina Poetsch	Lava Flow Simulation of the 2021 Tajogaite Eruption
30.05.2023	<i>Pfingsten</i>	-
06.06.2023	Federica Salomone	Thermodynamics of solutes in low-density fluids: design and calibration of a new equation of state
13.06.2023	Martin Steiner	Holocene wildfire reconstruction at Grand Etang peat bog near Gérardmere, Vosges
20.06.2023	Prapawadee Srisunthon	Geoarchaeology and Fluvial Dynamics of Nan Region, Northern Thailand
27.06.2023	Simon Ogbodo	Comparison of different approaches to determine grain size distributions in fine grain sediments
04.07.2023	Jelger Krijn	Petrography of the contact metamorphic aureole around the Mourne Mountain granite complex, Northern Ireland
11.07.2023	Elena Koutoula (via ZOOM)	Fenites: fluid source and metasomatic origin
18.07.2023	Timileyin Ayomide Olanipekun	Major and trace element geochemistry of IOA Deposit, Malmberget, Northern Sweden
